ABOUT US

HISTORY & MISSION

Clear Design Display was established in 1995 and is the leading acrylic product fabricator in Southern Africa. We provide all industries, including retailers and independent clients, with innovative marketing, visual merchandising, point of sale and custom-made display solutions for their business.

We offer the full package solution for bespoke product development, from concept and design to manufacturing and digital printing. We employ the latest technologies and machinery to produce unique products that allow our customers to stand-out. Our years of experience, expertise and knowledge has enabled us to establish a loyal customer base.

We manufacture products with a variety of materials including Perspex, Plexiglas, Forescolour wood, EU Mirror and Greencast Acrylic. The materials we use are available in a range of colours, sizes and thicknesses, supporting our client's specific product design. We work with sustainable materials and practice environmentally-conscious decisions. We aim to minimise our impact of manufacturing and strive to eliminate wastage by recycling.

Our unique approach to retail displays and fixtures, combines experience, quality and efficient craftsmanship with a special focus and attention to detail. We continue to strive for a better future and greener planet.

Clear Design 

Clear Design Pty Ltd 

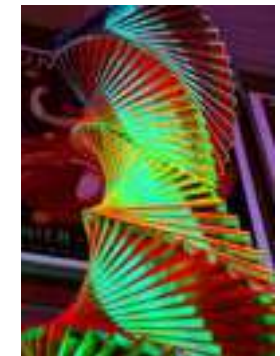

MISSION

Clear Design Display is a leading acrylic fabricator, specialising in designing and building perspex and plexiglas products. Supporting visual communication, merchandising and point of sale displays for retailers and independent clients across the African market.

Clear Design Display strives to be the preferred acrylic fabricator in the Southern African market, through continued investment in staff and our manufacturing process. We view our services as a partnership to our clients' business rather than a supplier.

VISION

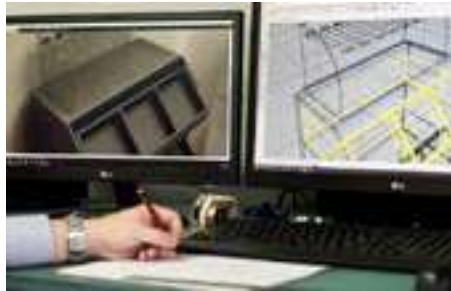

VALUES

At Clear Design Display, we value exceptional craftsmanship and quality fabrication. Integrity and loyalty is how we build lasting-relationships with our clients. Supporting our staff and clients, we can solve any problem.

Services

PRODUCT DESIGN

We have a passion for turning our clients visions into a reality. Our team of creatives and experienced designers thrive on problem solving, designing products that are both functional and add value to the client's business. We do story-telling through providing sketches, digital drawings and renders to our clients.

PRINTING

We own and operate a large-area flatbed digital UV printer and roll-to-roll vinyl printing machine. Both machines are capable of receiving inks and printing high resolution graphics on a variety of materials. Our prints are suitable for indoor and outdoor application and are used for business promotion and display.

CUTTING

We have an established cutting department and own specialised machinery for hand process, CNC router cutting, laser cutting and laser engraving. Our cutting team comprises of highly skilled workers that use computer aided software to program machines to create the product of your dreams.

ASSEMBLY

Our assembly team comprises of skilled and capable workers. The team conducts tasks such as assembly, gluing, molding, joining, polishing, forming, bending, building and packaging the clients end product. The manufacturing process is now complete and the display is ready for collection or delivery.
